PUC Proposes to Grant Electricity Licence for Self-Generation and Supply

In accordance with Statutory Instrument (S.I.) 39 of 2024, the Public Utilities Commission (**the "Commission"**) hereby notifies the general public that it intends to grant **Electricity License** to an applicant as follows:

Licence Category	Licence Type	Applicant
Licence to Persons of a Class	Intermediate Self-Generation and Supply	Coconut Point Operations Ltd., Mile 12 Coastal Hwy. Western Lagoon, Belize, Belize

Reason for Proposal to Grant the Electricity Licence:

Intermediate Self-Generation and Supply – to allow the generation of electricity by a person solely for their own use, with the entire output dedicated exclusively to self-supply. The generation capacity threshold for this class of licence is defined by regulation and shall not exceed: (a) 1MW for onshore renewable generation, (b) 0.25MW for renewable energy generation in or near aquatic ecosystems, and (c) 2MW for combined heat and power generation.

Representations and Objections:

Directly affected parties and local authorities may submit **written representations and/or objections**, with respect to the proposed grant, by **4:00 p.m. on Thursday, January 1st, 2025** to info@puc.bz, or hand deliver at our office located on the 2nd Floor of Marina Towers in Belize City.
