PUC Proposes to Grant Electricity Licence for Distributed Generation for BATSUB

In accordance with Statutory Instrument (S.I.) 39 of 2024, the Public Utilities Commission (**the "Commission"**) hereby notifies the general public that it intends to grant **Electricity License** to an applicant as follows:

Licence Category	Licence Type	Applicant
Licence to Persons of a Class	Intermediate Distributed Generation	British Army Training Support Unit, Price Barracks, Ladyville, Belize

Reason for Proposal to Grant the Electricity Licence:

Intermediate Distributed Generation – to allow the generation of electricity by a person from a capacity not exceeding the peak demand for oneself and who is permitted to sell the excess and to trade electricity services with the utility. The generation capacity threshold for this class of licence shall not exceed 250kWe and energy storage systems installed shall not exceed 1 MWh and shall be connected through a dedicated transformer or at the primary network.

Representations and Objections:

Directly affected parties and local authorities may submit **written representations and/or objections**, with respect to the proposed grant, by **4:00 p.m. on Monday, April 13th, 2026** to info@puc.bz, or hand deliver at our office located on the 2nd Floor of Marina Towers in Belize City.
